THIS FORM MUST BE COMPLETELY FILLED IN

Follow these procedures: If requested by your instructor, please include an assignment cover sheet. This will become the first page of your assignment. In addition, your assignment header should include your last name, first initial, course code, dash, and assignment number. This should be left justified, with the page number right justified. For example:

Save a copy of your assignments: You may need to re-submit an assignment at your instructor's request. Make sure you save your files in accessible location.

Academic integrity: All work submitted in each course must be your own original work. This includes all assignments, exams, term papers, and other projects required by your instructor. Knowingly submitting another person's work as your own, without properly citing the source of the work, is considered plagiarism. This will result in an unsatisfactory grade for the work submitted or for the entire course. It may also result in academic dismissal from the University.

Hi Michael,

Outstanding work! This is the first time I have had a student use google docs. It does present a more "scholarly" look than "SurveyMonkey." Excellent questions. You may want to

expand some of your Likert response questions to five selections. Just keep that in mind for the future. In addition, I highly recommend that you add some demographic questions at the end of your survey (if you use one). Sometimes you can glean some very valuable data.

This assignment is important to you as you may be utilizing a survey for your research study. Online surveys are very popular and time saving! Of course you still need participation, which is somewhat difficult sometimes. Your score is 10 points. Please let me know if you have any questions. Hope you have a great vacation!
